

Twenty nine (29) Tombstones, located in Section 30 during the 1908 Survey and also, for many of them, in the 1971 Survey, were no longer standing in 2005. This Section was called "Negro Lot" in the 19<sup>th</sup> century.

Through study of the 1908 Survey of Sections, Lots and Tombstones, 1909 Alphabetical List of the Dead, Tombstone Inscriptions recorded in 1908 & 1971 and City Cemetery Interments Books, it has been possible to provide identification of these people.
